## STYLE

Good design is a statement.

That's why we have developed a Design Edition that fits powerfully into a stylish, urban design concept evoking modernity and quality. A fascinating symbiosis between innovation, technology and aesthetics that embodies the highest standards of dental treatment.

In the triad of design, technology and interiors, the Style Edition exhibits perfection down to the smallest detail. The all-round matt paintwork, which is unusual for treatment units, in combination with a subtly structured film in elegant grey and soft, handmade upholstery are real highlights.
